Smart Portable Sealed Milk Powder Dispenser

The Smart Portable Sealed Milk Powder Dispenser is a revolutionary solution for modern parents. This innovative device combines convenience, hygiene, and precision to make preparing your baby's formula quick and effortless, whether you're at home or on the go.

by Shi Shawn

Key Features

1

One-Touch Powder Dispensing

With our patented one-touch dispensing mechanism, you can accurately measure and dispense the exact amount of powder needed without any mess or guesswork. Simply press the button, and the precise portion is released instantly.

3

Wireless Portability

Designed with parents in mind, this dispenser is completely wireless and lightweight. Take it anywhere—whether you're traveling, running errands, or simply moving around the house—without being tethered to an outlet.

2

Quantitative Mixing

The dispenser features clear measurement markings, allowing you to prepare the perfect formula mixture every time. No more overfilling or underfilling—just accurate, consistent servings for your baby.

4

Sealed Freshness

The airtight seal ensures your baby's formula stays fresh, protected from moisture, dust, and bacteria. This prevents clumping and maintains the nutritional integrity of the powder until it's ready to use.

More Amazing Features

Large Capacity

With a generous 150g capacity, this dispenser can hold enough formula for approximately 20 servings. This means fewer refills and more convenience, especially during extended outings.

Easy Cleaning

The dispenser is designed for quick and easy cleaning. Its components can be easily disassembled, and the smooth surfaces prevent powder residue from sticking, making cleanup a breeze.

Long-Lasting Battery

Powered by a Type-C rechargeable battery, this dispenser provides exceptional longevity. A single charge can last up to a month, eliminating the need for frequent charging and ensuring you're always ready when your baby needs a feed.

Safety & Durability

Food-Grade Safety

We prioritize your baby's health by using only food-grade materials that are BPA-free and completely safe for infant use. The materials meet the highest safety standards, giving you peace of mind with every feed.

Durable Construction

Built to withstand daily use, the dispenser is made from impact-resistant PP material. It can withstand accidental drops and rough handling, ensuring longevity even with frequent use.

Patented Design

This innovative product is backed by a utility model patent (ZL 2021 22148710.7), certified by the National Intellectual Property Administration. You can trust in its quality and effectiveness.

让你没有电量焦虑

Type-C充电更便捷，持久续航可用一整月

Benefits to Parents

Time-Saving Convenience

Prepare formula in seconds with minimal effort, allowing you to respond quickly to your baby's needs without the hassle of measuring and pouring powder manually.

Hygienic Preparation

The sealed design prevents contamination, ensuring your baby receives fresh, uncontaminated formula every time. This is particularly important for sensitive infants.

Reduced Waste

The precise dispensing mechanism minimizes powder waste, making your formula supply last longer and saving you money in the long run.

Stress-Free Travel

With its compact size and portable design, this dispenser eliminates the need to carry multiple formula bags or containers. It's the perfect companion for parents who are always on the move.

Technical Specifications

Capacity	150g (approximately 20 servings)
Dimensions	22.5cm x 7cm
Materials	PP, ABS, POM, food-grade silicone
Battery Life	Up to 1 month per charge
Charging Port	Type-C
Available Colors	Blue, Green, Pink, Orange
Patent Number	ZL 2021 22148710.7
